4 product FOB panel

NON-DED REGULATOR FOB PANELS

STANDARD FEATURES

• A simple approach to manage and organize beer/gas lines inside a walk-in cooler

• Pre-drilled panels made of NSF-approved composite can be sealed directly to cooler walls with no voids behind the panel

• Reduces number of penetrations in cooler walls and improves structural integrity

• Panels come standard with NSF approved FOB, which prevents beer loss

• FOB has a protective strainer along with a vent rinse manifold for easy maintenance

• Each panel includes 8-foot gas and liquid jumper lines (one set per product/keg) plus beer/wing nuts, tailpieces, washers and hose clamps
