

CELLARSTREAM DATA SHEET

Features

- Consistent in-line gas infusion system designed to infuse flat beer with nitrogen or gas blend of choice
- Experiment with new gas blends/infusions on existing beers or come up with something entirely new
- Most popular for nitrogen infusion in brewery tasting/tap rooms given challenges typically associated w/ consistent nitro
- Simple installation: Mount, Connect, Pour.
- Compatible w/ long-draw, direct-draw & through-the-wall systems

Minimum Gas Inlet Pressure	Must be greater than or equal to liquid inlet pressure
Maximum Gas Inlet Pressure	60 PSI
Gas Inlet Fitting	3/8" OD barb
Maximum Liquid Inlet Pressure	60 PSI
Liquid Filtration Requirement	No particulate greater than 5 microns in diameter
Liquid Temperature	34°F (min) - 120°F (max) (lower temps yield better results)
Liquid Inlet Connection	3/8" Hose Barb
Liquid Outlet Connections	3/8" Hose Barb
Dimensions	TBD
Weight	TBD

SLOW DANCE DATA SHEET

Features

- Get the most out your CellarStream with the Slow Dance!
- Pair with the CellarStream to fill kegs with infused product
- Choose between dispensing and keg filling with the flip of a switch
- Features auto shut off so kegs can be left unattended during the filling process

Electrical	115 VAC <1 amp NEMA 5-15P
Liquid Pressure	60 PSI (max)
Flow Rate	.5 GPM (max)
Liquid Filtration Requirement	No particulate greater than 5 microns in diameter
Liquid Temperature	34°F (min) - 120°F (max)
Liquid Inlet Connection	Male Beer Thread (29/32 Straight Thread)
Liquid Outlet Connection	Male Beer Thread (29/32 Straight Thread)
Dimensions	TBD
Weight	TBD
