

**NITROGEN  
INFUSION KIT**

- **Consistent in-line nitrogen infusion.**
  - Designed for coffee, tea, cocktails & more.
- **Serve still & nitro pours from a single keg.**
  - No waiting, shaking kegs or guesswork to get incredible nitro.
- **Intelligent design only infuses while dispensing.**
  - Prevents oversaturation.
  - Minimizes gas consumption.
  - Ensures consistent performance.
- **Make it your own.**
  - Adjust nitrogen infusion level with the turn of a knob.
- **Extends product shelf life.**
  - Nitrogen displaces air, limiting oxidation.
- **Simple installation: Mount, Connect, Adjust, Pour.**
  - No electricity required.
  - Compact design fits in walk-in coolers & direct draw boxes.
  - Works w/ long-draw, direct-draw & through-the-wall systems.

<b>Minimum Gas Inlet Pressure</b>	20 PSI
<b>Maximum Gas Inlet Pressure</b>	50 PSI
<b>Gas Inlet Fitting</b>	3/8" OD barb
<b>Liquid Filtration Requirement</b>	No particulates greater than 150 microns in diameter
<b>Liquid Temperature</b>	34°F (min) - 120°F (max)
<b>Liquid Inlet Fitting</b>	Corny keg liquid ball lock connector included
<b>Liquid Outlet Fitting</b>	3/8" female push-to-connect (3/8" OD stem x 1/4" OD barb adapter included)
<b>Dimensions</b>	11" L x 17" W x 4.25" D
<b>Weight</b>	5 lbs
